Spring Creek's Adventure Spa in the great outdoors.

Mayflower Inn's Spa House goes man-only in Nov.

Male order spas

2) Spa House at the Mayflower Inn

Connecticut

This new destination spa at one of New England's most elegant country house hotels is getting raves from the national press — and its mostly female clientele. But from Nov. 5 - 10 (and on various dates throughout 2007) the spa goes male-only (well, clientele-wise — there'll be girls massaging you), which means less than 30 guys in a 20,000-square-foot facility, complete with all the latest bells and whistles.

Perfect for: The stress-ridden executive — besides classes on stress-management, nutrition and fitness, there'll be plenty of massages (the week-long package includes an unlimited number of treatments).

Info: \$6,700 for Men's Week, mayflowerspa.com.
